Foothills Credit Union is a full service, not-for-profit, member-owned cooperative dedicated to meeting the financial needs of its membership since 1946. Every member is an owner, not merely a customer. In fact, member-ownership is one of the key differences between credit unions & other financial institutions. While many local banks are merging into mega banks with out-of-state management & owners, you can rest assured Foothills CU remains locally-owned & operated. We are owned by our members and cannot be bought or sold. In addition, all accounts are insured, up to \$250,000, through the National Credit Union Share Insurance Fund.

Just a portion of the products, services, and benefits Foothills CU has to offer are included here. Call or visit our website for more information!
